MG Motor India partners with BPCL to bolster EV charging infrastructure

Automaker MG Motor India has said it has partnered with Bharat Petroleum Corporation Ltd (BPCL) to bolster EV charging infrastructure across the country.

The partnership with BPCL will add momentum to EV adoption by providing opportunities for investors to build the two entities will install EV chargers across highways and within cities, the automaker said in a statement.

With BPCL's vast customer reach and operations and MG's strides in the EV arena, the two entities can combine expertise to collaboratively identify charging sites, garner consumer insights, devise loyalty programs, and create technology to manage charging systems, it added.

Rising Temperature Possible Cause For EV Fires, Faulty Units Must be Recalled: Nitin Gadkari

Union Road Transport and Highway Minister Nitin Gadkari said on Friday that while receding the matter is confined to the hot region, rising in temperature the weather conditions the country is currently going through.

"In the context of these hot days, the temperature is rising and there are a few accidents and the situation is deteriorating," Gadkari said in the address.

Questioning that the government's policy is more often popular among the masses, the Minister said the EV industry has to improve.

IONIQ 5 ELECTRIC VEHICLE For India: Launch in 2022, Itself Hyundai Confirms

Hyundai Motor India has officially announced that the company will launch the IONIQ 5 electric vehicle in India in 2022. The car is expected to be launched in the second half of the year.

Speaking about the IONIQ 5, the executive said that the car will be the most advanced electric vehicle in India. It will have a range of over 500 km on a single charge.

Delhi Govt Add E-Cycle In Their New EV Policy

The Delhi government has added e-cycles under the Electric Vehicles (EV) policy in the national capital. They will provide a subsidy of Rs. 5,000 each for the first 10,000 buyers of e-cycles in the city.

This will include both passenger and cargo e-cycles with a speed of less than 25 km/hour.

Tata Nexon Long Range EV in India launch on May 11

Tata Nexon EV is currently the best-selling electric car in India. The company has announced that it will launch the long-range version of the car in India on May 11.

The car will have a range of over 600 km on a single charge. It will also have a faster charging time of about 30 minutes.

SEVGA ANNOUNCE NEW EV POLICY 2022

SEVGA has announced its new EV policy for 2022. The policy will focus on promoting the use of electric vehicles in the city and providing incentives for buyers.

REASON WHY EVERY EV MANUFACTURE REGISTER THEIR BUSINESS ON EV-VAHAN PORTAL

PAGE 02

Tata Passenger Electric Mobility Proudly Showcases Its New Vision, A Concept Built On Its Pure EV Architecture

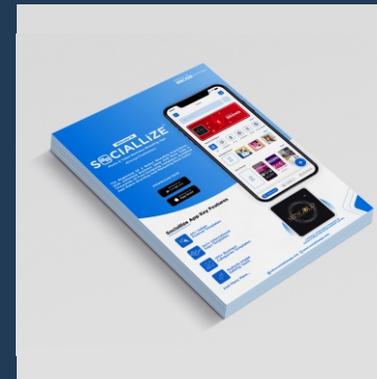

Tata Passenger Electric Mobility has unveiled its new vision for the future of passenger electric mobility. The concept is built on the company's pure EV architecture and focuses on providing a comfortable and convenient travel experience.
